

<p><b>Climate Ready Technical</b></p>	<p><b>Application No: No: 20200227230009_9603</b></p>
<p>INTRODUCTORY LANGUAGE</p>	
<p>The SA Climate Ready Climate Action and Adaptation Plan (CAAP) is San Antonio’s a roadmap to reduce carbon emissions, adapt to a changing climate, and ensure San Antonio remains a healthy, vibrant place for generations to come.</p>	
<p>The Technical and Community Advisory Committee will advise City staff and City Council on the implementation of the CAAP, and other associated long-term sustainability plans, such as the SA Tomorrow Sustainability Plan, while serving as a forum for the community to offer input on climate action and sustainability.</p>	
<p>As the CAAP is centered in equity and diversity, membership in advisory committees shall represent those that live and work within the City of San Antonio, inclusive of indigenous persons, communities of color, low-income residents, LGTBQIA+ persons, persons of varying ages, persons with different abilities, and other marginalized communities who hold diverse expertise, identities, and/or perspectives.</p>	
<p>The City of San Antonio, through the Office of Equity, has made a commitment to advancing diversity, equity and inclusion in local government in all of its Departments. Equity means that our policy-making, service delivery, and distribution of resources account for the</p>	

different histories, challenges, and needs of the people we serve. The Office of Equity is a citywide office focused on advancing social equity within City Government, to help reduce and ultimately eliminate disparities experienced by our most marginalized San Antonio residents, and the Office of Sustainability will continue to collaborate with them on the CAAP.

Please provide a brief summary of your expertise and/or perspectives.	I obtained a Master's in Sustainability and Development from Southern Methodist University. For my degree, I took classes such Sustainable Urban Planning, Sustainable Transportation, Sustainable Development, and Global Resource Use. Some of the projects I completed for my course work included an analysis of the Smart City transportation plans for various U.S. cities, presenting a sustainable neighborhood development plan, producing environmental life cycle assessments, as well

	as an analysis of eco-tourism in a developing nation.
Please provide a description of your professional, educational and community/volunteer experience.	I currently work as a water and wastewater engineering but I am in the process of transitioning into my company's urban planning department due to my master's in Sustainability and Development. Throughout my years living in San Antonio I have served in officer positions for the local chapters of various organizations, such as the American Water Works Association and Engineers Without Borders. I have also served as a Reading Buddy for the San Antonio Youth Literacy Organization and a participant in the WalkWestside Pedestrian Advocacy Coalition.
Please share your interest and commitment to racial and economic justice and other social equity issues.	I lived in the West side of San Antonio, a historically low income community, for nearly 3 years. During my time living here, I saw first hand what a tremendous impact poor infrastructure, specifically sidewalks, has on residents. The lack of "walkability" in the West side not only has a negative impact on the environment, but also creates dangerous conditions for low income residents, who may not be able to afford a car and must rely on walking to get to where they need to go. This is supported by the high number of pedestrian fatalities in West side communities. This issue was so important to me that I decided to make this the topic of my graduate school thesis project. Part of my thesis was completing a walkability assessment for a community in the West side and analyzing the City's infrastructure goals in past and current comprehensive plans. I submitted my assessment to the WalkWestside Pedestrian Advocacy Coalition, whom I worked with to establish the parameters of my assessment.
Please explain why you would like to serve on this committee.	I love San Antonio and am proud of the steps the City is taking to be a leader in the fight against climate change. I would like to serve on this committee because I want to help the City in this movement and be a part of such a critical task. Since a young age, I have been passionate about protecting the environment. I believe this passion, as well as my skills and knowledge, will allow me to help make this committee a success.
What potential barrier(s) may affect your participation in this committee?	Other
