

<p>Climate Ready Technical</p>	<p>Application No: No: 20200125171247_9281</p>
<p>INTRODUCTORY LANGUAGE</p>	
<p>The SA Climate Ready Climate Action and Adaptation Plan (CAAP) is San Antonio’s a roadmap to reduce carbon emissions, adapt to a changing climate, and ensure San Antonio remains a healthy, vibrant place for generations to come.</p>	
<p>The Technical and Community Advisory Committee will advise City staff and City Council on the implementation of the CAAP, and other associated long-term sustainability plans, such as the SA Tomorrow Sustainability Plan, while serving as a forum for the community to offer input on climate action and sustainability.</p>	
<p>As the CAAP is centered in equity and diversity, membership in advisory committees shall represent those that live and work within the City of San Antonio, inclusive of indigenous persons, communities of color, low-income residents, LGTBQIA+ persons, persons of varying ages, persons with different abilities, and other marginalized communities who hold diverse expertise, identities, and/or perspectives.</p>	
<p>The City of San Antonio, through the Office of Equity, has made a commitment to advancing diversity, equity and inclusion in local government in all of its Departments. Equity means that our policy-making, service delivery, and distribution of resources account for the different histories, challenges, and needs of the people we serve. The Office of Equity is a citywide office focused on advancing social equity within City Government, to help reduce and ultimately eliminate disparities experienced by our most marginalized</p>	

San Antonio residents, and the Office of Sustainability will continue to collaborate with them on the CAAP.

<p>Please provide a brief summary of your expertise and/or perspectives.</p>	<p>I have been studying urban climate related issues (e.g. the urban heat island effect urban flooding urban climate justice climate change) for over 8 years through my current position as an Assistant Professor at the University of Texas at San Antonio (UTSA) and my prior Doctoral and Masters work at the University of Georgia. I am very passionate about translating academic research into public policy initiatives and communicating scholarly works with the broader public. For example, I have appeared on NPR and the Weather Channel to discuss climate change and its impacts on cities. I have a very firm grasp of the latest scientific understanding of climate change and would be very excited to serve on this committee to ensure that the implementation process is consistent with the current knowledge of the scientific community.</p>
<p>Please provide a description of your professional, educational and community/volunteer experience.</p>	<p>I am currently completing my second year as an Assistant Professor in the Geography and Environmental Sustainability program at UTSA. I teach classes focused on weather, climate, and climate change. My research focuses specifically on urban climatology and how the urban environment can alter temperature (e.g. the urban heat island effect) and runoff (e.g. urban flooding). Prior to joining UTSA, I completed both my Doctoral and Masters degrees in geography with an emphasis on urban climate at the University of Georgia. I have been involved in the Climate Action and Adaptation Plan (CAAP) process by attending meetings and providing comments on the initial public draft and hope to become more involved by serving on the Technical and Community Advisory Committee.</p>

<p>Please share your interest and commitment to racial and economic justice and other social equity issues.</p>	<p>I am very committed to racial and economic justice as well as climate justice. It is widely acknowledged that the most vulnerable and marginalized populations are the most heavily impacted by climate change. This highlights that it is imperative an equity lens is utilized when implementing the CAAP. Much of my previous research has utilized a similar equity framework to that outlined in the CAAP and focused on vulnerability to climate hazards and identifying environmental injustices as it pertains to urban flooding.</p>
<p>Please explain why you would like to serve on this committee.</p>	<p>Climate change is one of the most important challenges facing urban areas and future generations. The City of San Antonio has a unique opportunity to enhance its climate resiliency through both mitigation and adaptation measures, and I am very interested in lending my expertise to these efforts. Ensuring that the implementation of the strategies outlined in the CAAP is in line with the latest scientific understanding of climate change and urban climatology will be imperative to the plans ultimate success. I also believe that serving on the committee could provide an opportunity to enhance the degree of collaboration between the City of San Antonio and UTSA. Strengthening the partnership between the city and university will be important for successfully addressing the major challenges facing our region, such as climate change.</p>
<p>What potential barrier(s) may affect your participation in this committee?</p>
